Looking Back at Where We Were...

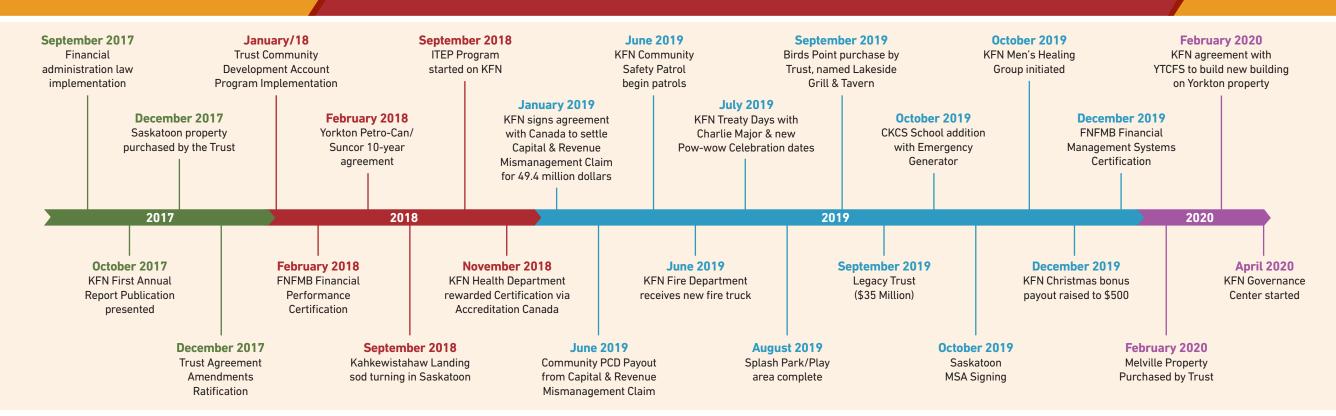

AT-A-GLANCE

A Review of KFN Highlights and Accomplishment between 2017-2020

We have been taking major steps to improve economic development, build infrastructure, enhance social programs and manage Citizen safety. With increased economic generation it has meant we can also improve social programs, wellness and recreation activities for families and individuals. Many of these accomplishments are significant, but they are only the beginning.

See the flip side of this page for the future plans for the next three years.

We have taken many steps to successfully implement the vision for our Nation. We are on the road to prosperity. Never before in our history have our own source revenues been so high.

On behalf of Chief and Council, we thank you, the Citizens of our great Nation for your vision, your ongoing trust and support. We could not have achieved what we have without you. By continuing to work together, we can keep our Nation moving forward.

KAHKEWISTAHAW
FIRST NATION
With the Eagle We Soar

Looking Ahead to Where We are Going.

A Bright Future!

Forecast for April 2021 to August 2023 We have many exciting plans on the horizon and with a continued vision and hard work, we will achieve these goals and many others. Chief and Council will work to continually explore every opportunity to improve the wellbeing of our citizens and improve the economy, lifestyle and opportunities in our Nation.
